Professional Experience

INFOSYS Limited – Jaipur, Rajasthan

Role & Responsibilities

- Understanding manual processes and designing bots to automate repetitive processes.
☑ Did development of front end and back end bots to automate number of processes.
- Responsible for provisioning of those bots in UiPath orchestrator, organization wide and schedule them.
- Created flowchart and sequences according to UiPath best practices to create bots.
- Used large number of activities in different workflows to suffice automation requirements.
- Implemented different kinds of automations inside organization for example- excel, pdf, word, web, desktop applications, reporting tools, data entry, database, email and etc.
- Identifying exceptions and its solution by testing each activity. Used debugging features present in UiPath Studio.
- Created different documents related to automation projects.

LIVE PROJECTS:

Process 1: HR Onboarding Process using Re-Framework

The HR executive is provided with Employee Appointment Letter(.pdf), Payroll Details(.doc) which he/she will need to process further. Using some of the details provided in the documents received, he/she will generate Employee ID and Email ID through HR portal. As a final Step, he will add all these details of the employee to a Excel Master sheet.

Responsibilities:

- Gathering detailed requirements from Client for business requirements.
- Go through SDD which is given by BA.
- Participating daily scrum calls and getting my doubts clarified.
- Adding automations and C# scripts to the project.
- Unit testing the developed automation.
- Fixing bugs raised by QA team.

Process 2: Scanned/Image Invoice Extraction using Document Understanding

Created a Robot to extract requested information from a scanned/image invoice as per requirements using Document Understanding.

Also, created a Robot to extract Handwritten Data from a pre-filled Insurance form using document Understanding.

Responsibilities:

- Worked with the Business Analysts in identifying and defining the requirements.
- Deployment phases covering the entire Application Development Life Cycle.
- Designing automation solutions in accordance with standard RPA design principles.
- Conducting unit testing and System testing.
- Facilitating Integration and User Acceptance Testing.
- Extensively worked on debugging application for fixing bugs and Production support.

ACHIEVEMENTS:

- Got UiPath Certified and delivered award winning project using UiPath

AWARDS:

- Infosys Limited: Received Insta Awards and Appreciations from Client.
- Received PRIDE Cards from UK Banking Client.
- Runner-up Award in inter-Organization Cricket tournament.

EDUCATION:

Degree	Institute	University/ Board	Year of Passing
B.Tech (CSE)	Galgotias University, Greater Noida	GU	2016
12th	The Modern School, Lucknow	I.S.C	2012
10th	The Modern School, Lucknow	I.C.S.E	2010

INTERESTS:

- Worked as a placement coordinator to understand the situations regarding team management.
- Surfing YouTube in free time to keep myself updated to some news. Also, started a YouTube channel: UiPath Technical Lab
